

SmartAudit Pro - Audit Sampling Report

Metric	Result
Population records	300
Sampling method	Risk-based
Selected samples	25
Threshold	1000000
Generated	28-09-2026 18:15

Methodology and limitation

The application supports population analysis and sample selection. Risk-based selection is targeted testing, not statistical sampling. Sample size and selection must be designed by the auditor having regard to the audit objective, population characteristics, sampling risk and professional judgement under SA 530.

Selected samples

Selection Method	Risk Score	Risk Reasons	Voucher No	Date	Vendor	User	Narration
Risk-based	8	Above threshold, Round amount, Sensitive narration	JV0155	2026-03-10 00:00:00	ABC Ltd	user01	Manual year-end adjustment
