

THE INSTITUTE OF CHARTERED ACCOUNTANTS OF INDIA

(Set up by an Act of Parliament)

AI for Chartered Accountants-Level-2 Ver 5.0

Course Name	AI for Chartered Accountants-Level-2 (AICA-Level-2)
Course Objective	Enabling Chartered Accountants as AI Consultants by Implementing AI at Client Offices: To Empower Chartered Accountants with advanced AI skills to design and deploy end-to-end AI solutions at client offices, enhancing operational efficiency and improving decision-making.
Eligibility	AICA-Level-1 Certified (CA's Only)
Course Type	Non- Residential
Duration	Online Mode on Zoom (2 Days) – Max 200 participants Joint sessions for 3-4 batches, held 1-2 time(s) in a month. Physical Mode (3 Days) – Max 50 participants In-person course for up to 50 participants.
Location	Online sessions will be conducted via Zoom, and participants should join from a quiet, noise-free location (own personal location). Physical sessions may be held at ICAI Branches, ICAI Centres of Excellence, or third-party venues with prior approval from AI in ICAI.
CPE Hours	30 Structured Hours
Fees	INR 10,000/- + GST
Duration	5 Days (10 AM-6 PM). 2 Days Online and 3 Days Physical.
Digital Certificate	Participants will receive their digital certificate within approximately 45 days of completing the batch, capstone project submission, and review process Completion. Once available, the certificate can be downloaded from Digital Learning Hub, and participants will be notified via the AICA Group.

Accommodation	For ICAI Branches: Outstation participants are requested to arrange their own accommodation at their own expense. Breakfast, Tea & Lunch (Veg Only) will be provided at the ICAI Branch venue. For ICAI Center of Excellence Hyderabad/Jaipur: Accommodation with food is available at an additional cost for double occupancy, subject to availability. After registration, email coehyd@icai.in or coejaipur@icai.in with your check-in/check-out and batch details. Payment of INR 1000 per day (+GST if applicable) is to be made at COE at the time of checkout.
Pre-Requisites	This course is open only to Chartered Accountants who are AICA Level -1 Certified. Only those who have successfully completed and received the AICA Level 1 Certificate are eligible to register for AICA Level 2. It is designed for CAs who have: • Basic knowledge of computers and Microsoft Office • A foundational understanding of AI concepts (AICA Level 1) • Participants are expected to have basic familiarity with prompt engineering and analytical skills and should strengthen their learning by reviewing the pre-read material as well as the refresher course videos uploaded on the DLH portal, prior to commencement of the course. Hands-on Experience on: Command Prompt, File Execution, File Uploading, Cloud Sharing, File Deployment, APK File Transfer on Mobile, Web WhatsApp, Web Telegram, Windows APP Installation, One Drive/Google Drive, Google Sheet. VISA-enabled Credit Card/Debit Card for International Transactions: Participants may need to activate or subscribe to free or paid AI tools during the course, as advised by respective day-wise faculty. They should keep a VISA-enabled credit or debit card ready, with international transactions enabled where required, for hands-on exercises.

Pre-Requisites	Note :- During the AICA Level 2 course, participants will be provided temporary access to the ICAI AI Agent, an AI platform developed by ICAI. The platform provides access to several leading AI models through a single interface, enabling participants to explore and use different models for coursework and capstone project development. Access to the ICAI AI Agent will be available only for a limited period during the course. It will be revoked after the final submission deadline for the Capstone Project. Participants are therefore advised not to depend exclusively on the ICAI AI Agent. For uninterrupted access, enhanced features and better availability, participants may consider subscribing to their own paid or professional plans of the relevant AI tools. Participants should also ensure that no confidential, personal, client-related or sensitive information is entered into any AI platform while completing course assignments or projects. Online Webinar Requirements: Laptop: Participants are required to use the same laptop for both online and physical meetings, ensuring that all necessary installations are performed on a single machine. *Two-day Zoom session, attended from the participant's home or office. • Internet: High-speed connection • Camera: Built-in or external webcam (Mandatory to be on during the Class) • Audio: Built-in or external microphone and speakers; headset with mic recommended for best clarity • Participants will receive a unique panelist invitation for the online session before the start of the webinar. The participants are strictly requested to join the webinar through the unique link provided to them via e-mail only. Do not use others' links to join the webinar • Participants may join the session from two different devices simultaneously—one for watching the lecture and the other for practicing the hands-on exercises If your email address is not registered or you do not receive the link, please contact us at ai@icai.in
----------------	--

ICAI will arrange the Internet Connection at ICAI Venue. Participants may have backup arrangements i.e. Wi-Fi Dongle, Mobile Hotspot. If there is any Internet Issue, Participants may do hands on Use Case Practical Exercise along with Groups/other participants.

Login Account on Digital Learning Hub: <https://learning.icai.org/iDH/icai/>

Participants shall ensure that they are able to login into Digital Learning Hub and able to access AICA Course Module as Daily Assessment test and Certificate would be available on platform. DLH access is provided to users 2 days prior batch starts. Email on ai@icai.in for any issue.

Scan to open DLH website-

Laptop & IT Infrastructure Requirements:

Requirement	Details
Laptop	Participants must bring their own laptop.
Minimum Specifications	Windows 11- 8 GB RAM- Intel i3 processor or higher
Administrative Access	Required to install and run AI tools and files.
Corporate Laptops	Ensure firewall allows connection to external Wi-Fi- Permit downloading and installation of AI tools- If restrictions apply, bring a personal laptop
Compatibility Note	MacBook devices are not permitted, as required applications may not be compatible. Windows devices are recommended.
Android Mobile (Optional)	Participants are required to have an Android smartphone with a minimum of 8 GB RAM for hands-on exercises involving the installation and use of offline LLMs.

This Document **AICA Level2 (Ver 5.0)** will be uploaded on DLH & Shared to WhatsApp Group. AI in ICAI will create WhatsApp Group of all participants for Sharing knowledge updates, Certificate Course Material, Use Cases etc.

Email at ai@icai.in for any query or WhatsApp us at 9910568125

Certification Requirement	Each Participant must complete the following activities: A. Attending all 5 Days (D1 & D2 Two Days Online Session and D3, D4 and D5 Three Days Physical Class). B. Completion of Quiz and Poll in Online and In-Class Hands-On Exercise Completion C. Passing Daily Online Assessment Test in DLH on all Day 5 PM to 11 PM. D. Completing the Individual Capstone Project within 10 Days of Batch Completion.
Assessment Methods:	Final Test Structure: Total 100 Marks Module A: Daily Objective Online Assessment (Total 50 Marks) Daily Assessment Test on DLH on Online-Day1 and Day-2, Physical-Day3, Day 4, and Day 5. (MCQ Objective Paper-10 Marks, Passing Marks-5 Marks per Day). Daily Time From 5 PM to 11 PM. Participants must ensure they can access the AICA L2 course module one day in advance via https://learning.icaai.org/iDH/icaai/ Note: Clear a minimum of 5 out of 10 questions per test, with two attempts allowed. If a participant is unable to attempt or pass any of the tests, ICAI will assign them to a new batch (Online only) and inform them accordingly. The participant will be required to retake all five days of tests within the specified time. Module B: Five (5)-Minute Group Presentation on Group Project Demonstration on Day-5. (Total Marks-20 Marks, Passing Marks-10) – (4 Participants per Group) Participants will be divided into groups of four, based on the alphabetical order of their first names. Each group will demonstrate a 5-minute Group Project starting at 3:00 PM on Day 5. Groups will be formed and informed in advance to allow preparation time. Note: The group will decide the Group Project based on the learning of all 5 Days and start preparing on Day-3 and Day-4 and Present on Day-5. All members of the group must participate in the Group Activity. Participants are requested to undertake project preparation on Day 3 and Day 4 after 6:00 PM at the branch premises. Participants will not be given time to prepare for the same on Day 5.

	Module C: Capstone Project- 30 Marks, Passing Marks-15 All Participants are required to Submit the Capstone Project on Individual Basis within 10 Days of Completing the Course. The Capstone Project based on the 5 Days Learning of AICA Level 2 Shall be used to develop Capstone Project. Each participant is required to record a video (Showcasing their <i>Capstone Project</i>). This video must include both the Participants facial expression and technical content. The video should be uploaded to YouTube unlisted mode or Google Drive, and the video link must be submitted through the same Google Form. Please ensure that the link is accessible to anyone. Capstone Project File Upload: Participants are required to upload the capstone project on GitHub. Refer to Annexure D for the same. Target repository: https://github.com/aiinica/AICA-Level-2-Projects Google form:- https://forms.gle/cucnBGn34bVHFaxt9
Future Roadmap	ICAI has announced the Launch of AICA-Level-3 for which the batches shall be launched soon.
Note	Module timings and breaks are tentative and may be adjusted as per the ICAI requirements.

Guidelines for Participants of AI CA Certificate Course Batch Level 2

Refund Policy	1. Full Refund Eligibility: Participants who are unable to attend all five days of the course, for any reason, will be eligible for a full refund. This refund will be processed automatically to the same bank account or payment source used for registration, after the course concludes, and upon receipt of attendance confirmation from the Branch within 15 days of course completion. 2. Non-Transferability of Refunds: Refunds cannot be transferred or adjusted against any other batch. Participants wishing to attend a future batch must complete a fresh registration.
	3. Non-Attendance on Day 1: Any participant who is unable to attend Day 1 of the online batch will not be permitted to attend Day 2 (online) or the subsequent three days of the physical batch. In such cases, the participant's registration will be automatically cancelled, and the refund will be processed as per Point 1. 4. Missed Sessions After Day 1 Attendance: Participants who attend Day 1 (online) but are unable to attend Day 2 (online) or any of the three days of the physical batch must email ai@icai.in requesting to attend the missed day(s) at another location within two month free of cost. This will enable them to complete the required activities and become eligible for the course certificate.
Batch Transfer Policy	Batch transfers are not permitted. If a participant is unable to attend, they will receive refund automatically after the Batch concludes & Attendance from Branch. Participants may complete a new registration for the upcoming batch at https://ai.icai.org/aica_level2.php
Registration Query	Registration is not possible once the batch is closed. However, if the local branch has the capacity to increase seats, they may request an extension, subject to a maximum of 50 registrations. Participants can register through the portal. The launch of new batches can only be requested by the branch to the AI Committee and is subject to the availability of the lab.
Notifications of New Batch	Participants Can Follow AI in ICAI WhatsApp Channel to receive the Notifications of New Batch Opening. https://www.whatsapp.com/channel/0029VaThu9gCsU9SZu71gY30 

Missed Days Attendance:	If participants miss any sessions or group presentations, they must attend to the missed portions in another batch at no extra cost within one month of the batch completion. Participants should send an email to ai@icai.in and the respective Branch, mentioning the following details: Original Batch Number, Missed Day, Membership Number, Name, Mobile Number, Batch Number in which they wish to attend the missed session, Participants must also mark their manual attendance in the attendance sheet, clearly mentioning their original batch number.
Daily Assessment Test	Participants must complete the Daily Assessment Tests for Day 1, Day 2, Day 3, Day4 and Day-5 on the Digital Learning Hub each day between 5 PM and 11 PM. To ensure a smooth experience, participants should verify a day in advance that the course is available on their dashboard. The test should only be attempted after 5 PM, following the completion of the class and confirmation from the faculty. If a participant misses a test or does not pass, ICAI will automatically enroll in a designated online batch, titled "Special AI Batch," which will be conducted from the 4th date (starting at 10 AM) to the 10th date (ending at 11 PM) of the following month. Participants will receive an email notification from the Digital Learning Hub (DLH) once Online Assessment is Available. To successfully complete the AICA-Level Course and qualify for certification, participants must attempt and pass all five tests within the designated period. They have the option to complete Missing tests in a single sitting as well.
Group Presentation on Day-5	Participants will be grouped in sets of four based on alphabetical Order. If a participant misses their group presentation, they must complete it in the next available batch at any ICAI branch in India physically to be eligible for the AICA Level 2 Certificate. Participants must email ai@icai.in to request the same. To complete the group presentation, participants can join the respective branch, mark their attendance, and provide their previous batch number along with the reason for missing the original presentation (i.e., "Missed Group Presentation").
WhatsApp Contact	An AI batch-specific WhatsApp group is being created for all participants. Please ensure you are added to the group named in the format: "AICA-L2-BatchNo-Location-Date." "The group link will be shared in the acknowledgment email sent from no-reply@icai.org at the time of registration. Joining the WhatsApp group is mandatory for all participants. If you have not joined the group within 10 days of registration, please contact us by email at ai@icai.in or WhatsApp us at 9910568125.
Other Queries:	For any questions, email ai@icai.in from your registered email ID with your membership number and name. Expect a response within 24 hours.

ID Proof	The branch-authorized personnel will verify participant IDs at the time of attendance. Participants are required to present their original ID for verification.
Reading Material	Following the reading material available in Soft Copy 1. Pre-Read Material on Digital Learning Hub. 2. AICA User Manual (Must Read Before the Batch Starts) This guide covers everything you need to know about the course such as schedule, rules, which tools are covered, how to take online assessments, get your digital certificate, group presentation, Capstone Project. It is updated and available on the Digital Learning Hub (DLH) and is also shared in the AICA WhatsApp group. You can download it directly from: https://ai.icaai.org/aica_level2.php 3. AI Use Cases and Hackathon Videos (Optional – For Ongoing Reference) Participants are encouraged to regularly explore AI use cases and videos from AI hackathons for better understanding and ideas. These are optional reading/viewing resources. Use Cases: https://ai.icaai.org/usecases.php Hackathon Videos: https://ai.icaai.org/videos.php
	3. Refresher Course Recorded Videos (Optional – After AICA Level 1 Course Completion Only) After your AICA batch ends, you are given an access to the recorded videos of the Refresher Course for revision. These videos are available on the Digital Learning Hub under the course name: "AICA Refresher Course Videos". Access is granted in the month after your batch ends. 4. ICAI is publishing physical books every month on various AI-related topics. It is accessible at https://ai.icaai.org/publications.php. These books are optional reading materials and can be purchased from the ICAI publication portal http://cds.icaai.org/ and AI in ICAI may provide any one book to Participants as part of AICA-Level2

Internet Connection	ICAI will provide an internet connection at the ICAI venue. However, participants are advised to have backup arrangements such as a Wi-Fi dongle or mobile hotspot. In case of any internet issues, participants may collaborate and conduct practical exercises in groups. Additionally, participants are requested to avoid connecting multiple devices to the Wi-Fi network, as the router has a limited capacity for simultaneous connections. Therefore, participants should use a laptop or desktop exclusively for the certificate course and connect only one device to the internet. The provided internet connection should strictly be used for AICA course-related activities.
GST Invoice Policy	GST Invoice Policy, participants will receive their GST invoice after the completion of the batch. These invoices are generally issued between the 10th and 15th of the following month and are sent via email from icareceipt@icai.in. Please note that B2B invoices will be issued only to those participants who have provided valid GST details at the time of registration. It is important to understand that GST details cannot be modified once the registration process is complete.
AICA Course Assistant	Participants with any queries related to the AICA Certificate Course can ask queries by Prompt to AICA Course Assistant. Refer below url or Scan QR Code for AICA Course Assistant https://chatgpt.com/g/g-F9aGz4TaY-aica-course-assistant 
Refresher Course	Since April 2026, the AI Committee of ICAI has been conducting Refresher Sessions for AICA Level 2 participants every alternate Friday. These sessions cover the latest AI tools, technologies and emerging developments. The joining link is shared through the participants' registered email ID.

Annexure A	Steps for accessing pre-read material / videos on Digital Learning Hub
Annexure B	Steps to Access Daily Assessment Test in Digital Learning Hub
Annexure C	Technical Issues & Solutions for the Daily Online Assessment Test
Annexure D	Submission of Capstone Project
Annexure E	Steps for Downloading Digital Certificate
Annexure F	Python installation guide

Disclaimer	As part of the course, you may come across third-party AI tools, videos, and websites. These are provided purely for knowledge sharing and learning purposes and may change from time to time. ICAI does not endorse or promote any tool and cannot take responsibility for their use. We encourage you to exercise your professional judgment and discretion while exploring them.
Orientation	The orientation will be conducted online via Zoom with participation from all enrolled candidates. During the session, the faculty will provide an overview of the Course Objectives, Agenda, Course Flow, Assessments, Project Work, Capstone Project, and Prerequisites to ensure participants are well-prepared for the program. Participants will receive the orientation link on their registered email ID.

Important Instructions

- 1.** Attendance in both online and physical sessions of AICA Level 2 is mandatory, and all participants are required to join the online session strictly on the scheduled date and time.
- 2.** All registered members will be added as Panelists to the Zoom session using their registered email ID. Once added, an automated Zoom joining link will be sent to the registered email address. Members are advised to check their inbox as well as spam/junk folders.
- 3.** In case a member does not receive the panelist joining link, a separate registration link will be shared through the official WhatsApp group. Upon registering through this link, the joining link will be sent to the registered email ID.
- 4.** Members who join the session as Participants through the alternate link will be promoted to Panelists by the AI in ICAI admin team after joining the session. Until the promotion is completed, certain Zoom privileges may remain restricted.
- 5.** All members must ensure that they join the Zoom session only through their registered email address. Since online attendance is captured and mapped based on the email ID used to join, joining through an unregistered email ID may result in non-consideration of attendance.
- 6.** Members are required to keep their camera switched on for the entire duration of the online session and are expected to actively participate in practical and interactive activities, as attendance will be evaluated based on time spent and participation reflected in Zoom reports.
- 7.** All participants must keep their microphone always muted, unless specifically instructed by the faculty or moderator to unmute, to avoid disturbance during the session.
- 8.** Members are expected to maintain professional conduct and discipline throughout the online session. Any form of disruptive or unprofessional behavior may be viewed seriously and may impact attendance or course compliance.

Annexure A: Steps for Accessing Pre-Read Material/Videos on Digital Learning Hub

Steps to Access the Content

1. Click on "Digital Learning Hub" <https://learning.icai.org/iDH/icai/>.

(Note: Kindly do this on laptop or PC and use google chrome only)

2. Login with your SSP user credentials. In case you have any issue with Login, use Forget Password.

(For any issue email at hossp@icai.in and elearning@icai.in)

3. After successful login, Click on the arrow.

4. After that click on the My Dashboard and Launch the Course, if Course is Not Visible, Click on View All.

You will see the below panel after clicking on “Launch” button.

Refer Pre-Read Material

Refer Online Assessment

Kindly check “Pre read” to access AICA Document (Check this before 4-5 Days of Batch). The Daily Assessment Test will be accessible after 5 PM on each designated test day.

side

5. Make sure you can see your batch name for the Course. If you do not see your assigned batch, please contact us ai@icai.in

6. Click on the Batch name of the course you are allotted to.

7. Click on the Launch button to access the content.

8. You will see the below panel after clicking on "Launch" button.

9. You will see the below panel after clicking on "Launch" button.

10. Kindly check "" Pre read & Module Structure "to access AICA Document (Check this before 4-5 Days of Batch)

11. The Daily Assessment Test will be accessible after 5 PM on each designated test day (Day 1, Day 2, Day 3, Day4 and Day5).

12. Before the Scheduled time, you will see following Screen.

13. If you have any issue regarding any of the steps or have not able to follow any steps, please mail us at ai@icai.in or WhatsApp at +91 99105 68125.

Annexure C: Technical Issues & Solutions for the Daily Online Assessment Test

1. **AICA Course Tab Not Visible:** If a participant registers at the last minute and isn't added to the course on the Digital Learning Hub by Day 1 after 5 PM, they won't be included in the current batch. They'll need to complete all five assessments in the next scheduled batch (online only).
2. **Technical Error during the Assessment Test:** If participants encounter technical issues during the test, such as the course tab or assessment not appearing, or blank windows, test is locked by admin, they should clear their browser history and cache as per below:
 - ☐ **Clear History & Cache:**
 - Open Chrome.
 - Press Ctrl + Shift + Delete (Windows) or Command + Shift + Delete (Mac).
 - In the popup, select Time Range (choose "All time" for a full clear).
 - Check Browsing history and Cached images and files.
 - Click Clear data.
 - ☐ **Open Incognito Window:**
 - Press Ctrl + Shift + N (Windows) or Command + Shift + N (Mac).
 - Or go to Chrome menu (three dots) > New Incognito Window.
3. **Assessment Test Score is not Visible:** If a participant has completed the daily assessment test and the score is not visible, the system will display a message indicating that the test is cleared. This confirms that the test is successfully completed, and participants can close the system. Scores will be available after 11 PM, once the assessment period has closed.

4. **Assessment Not Attempted/Not Cleared:** If a participant has missed or not cleared any of the assessment tests, they must retake all five tests in the next scheduled batch (online only). Participants will be automatically assigned to this batch and will receive an email notification with further details. Send email to ai@icai.in for any query

Annexure D: Submission of Capstone Project

All Participants are required to submit the Capstone Project on an individual basis within 10 Days of completing the Course. Participants shall develop their Capstone Project based on the learnings from all 5 days of the AICA Level 2 course.

Participants are requested to upload the project to **GitHub** and then fill the **Google Form** for evaluation.

Google form:- <https://forms.gle/cucnBGn34bVHFaxt9>

Step to Upload Your Project Folder to the AICA-Level-2-Projects Repository

Save your folder name as – AICA-L2-Batch-(XXX)-Name-Surname

Target repository: <https://github.com/aiinica/AICA-Level-2-Projects>

Overview of the Fork + Pull Request Workflow

1. Step 1: Fork — create a personal copy of aiinica/AICA-Level-2-Projects under your own GitHub account.
2. Step 2: Add your folder — put your project folder into your fork (via website upload or Git).
3. Step 3: Commit — save the changes in your fork with a message.
4. Step 4: Pull Request (PR) — ask the aiinica account to merge your changes into the original repository.
5. Step 5: Merge — the repository owner reviews and accepts your PR. Your folder now appears in the original repository.

Use this method if your project has relatively few files (under 100 per upload) and you do not need to keep commit history.

Step 1: Fork the Repository

- Log in to your GitHub account in the browser.

- Open <https://github.com/aiinica/AICA-Level-2-Projects>

- Click the 'Fork' button at the top-right of the page.
- On the 'Create a new fork' page, keep the default settings and click 'Create fork'.
- You will be redirected to your copy: <https://github.com/YOUR-USERNAME/AICA-Level-2-Projects>

Step 2: Upload Your Folder to Your Fork

GitHub's web uploader cannot create a folder directly, but there are two tricks:

Option A — Drag and drop the whole folder:

- In YOUR fork, click 'Add file' → 'Upload files'.

- Open your project folder's PARENT folder in File Explorer.
- Drag the entire project folder (not just the files inside it) onto the upload area. Modern browsers (Chrome/Edge) will keep the folder structure.

- Wait for all files to appear in the list.

Option B — Create the folder using a file path:

- In YOUR fork, click 'Add file' → 'Create new file'.
- In the filename box, type: MyProjectName/README.md — typing the '/' automatically creates the folder.
- Add some content, then click 'Commit changes'.
- Now open that folder and use 'Add file' → 'Upload files' to upload the rest of your files into it.

Note: If you have more than 100 files, upload them in batches, or use Method 2 (Git) instead.

Step 3: Commit the Upload

- Scroll down to the 'Commit changes' box.
- Write a short message, e.g., 'Add <Your Name> - <Project Name> project folder'.
- Keep 'Commit directly to the main branch' selected (this is your fork, so it is safe).
- Click 'Commit changes'.

Step 4: Open a Pull Request

- On your fork's main page, you will see a banner: 'This branch is X commits ahead of aiinica:main' — click 'Contribute' → 'Open pull request'.
- Alternatively, go to the 'Pull requests' tab and click 'New pull request'.
- Check the direction: base repository = aiinica/AICA-Level-2-Projects (base: main), head repository = YOUR-USERNAME/AICA-Level-2-Projects (compare: main).
- Give the PR a clear title, e.g., 'Add AICA Level 2 Project - <Your Name>'.
- In the description, briefly explain what your project does.
- Click 'Create pull request'.

Step 5: Wait for Merge

The owner of aiinica will receive your Pull Request. Once they review and click 'Merge', your folder becomes part of the official repository. You may receive review comments — you can update your fork and the PR updates automatically.

Annexure E: Steps for Downloading Digital Certificate

Participants will receive an email notification once the Digital Certificate is uploaded to the Digital Learning Hub. Additionally, an update will be posted in the AICA WhatsApp Group. Certificates are expected to be available approximately one month after course completion.

Login in Digital learning Hub <https://learning.icai.org/iDH/icai/> and select the Batch for Which you want to access the Certificate.

A. Click on the three dots just by the side of Launch button.

B. After that a dropdown menu will appear like this:

C. From this menu you can select to download certificate.

D. You will be able to download the certificate.

Note: In case any of the Participant absent any of the day, Missed Group presentation, not completed any of the assessment test or failed to submit capstone project within 10 days of batch completion then in such cases, participants certificate would not be generated. Participants are required to complete pending activities at any of the Batch informing at ai@icai.in. Participant certificate would be generated only after completing all activities.

Annexure F: Python Installation

Quick Guide on Python Installation

1 Download Python

Go to python.org/downloads, or use the direct link below.

Direct download (click the link)

<https://www.python.org/ftp/python/3.14.6/python-3.14.6-amd64.exe>

2 Click the standalone installer

On the download page, choose the standalone installer for Python 3.14.6, not the install manager.

3 Run the downloaded file

Open python-3.14.6-amd64.exe from your Downloads folder.

4 Tick both boxes

Use admin privileges when installing py.exe, and Add python.exe to PATH.

5 Click Install Now

Wait for the installer to finish, then close it.

Tick both boxes at the bottom, then click Install Now.

AI for Chartered Accountants-Level-2 Ver 5.0
AICA Level 2 (5 Days- 2 Days Online and 3 Days Physical)

Course Structure (2 Days Online on Zoom- Day1 & Day-2)

Day	Modules Name	Module Description
5-10 Days Before the Certificate Course	Orientation	An online orientation will be conducted 5–10 days prior to the commencement of the Level 2 batch to brief participants on the course structure, prerequisites, capstone project, and certificate requirements
Module A		
Day1 (Online) (10 AM to 6 PM)	Module 1: AI Agents – Concepts & Architecture	Recap of AICA Level 1 and transition to Level 2. Introduction to AI Agents, their core concepts, architecture, and role in automating professional workflows. Covers Multiple Agents and the design logic behind agent-based task execution.
	Module 2: ICAI AI Agent, Connectors & App Integrations, Claude Skills, Plugins & Agentic Workspaces	Practical exposure to ICAI AI Agent, Connectors to major LLMs. Agent Skills and Plugins. Claude Cowork* / ChatGPT Work* and super agents.
	Day-1 Online Assessment on DLH (5 PM -11 PM) & Feedback	
Day2 (Online) (10 AM to 6 PM)	Module 3: Computer Vision	A foundational overview of Computer Vision concepts, setting context without deep technical implementation. Overview of Google AI Studio interface, capabilities, and configuration options. System instructions, model parameters.
	Module 4: Communication Automation & Data Visualization Using AI	Introduction to The Bricks platform for structured AI workflows and prompt-based automation. Advanced Google App Script for AI-enabled automation, integration with Google Workspace.
	Module 5: Offline GPTs	Understanding offline LLMs, local model execution, privacy advantages, and practical business use cases relevant for professionals. Introduction to and hands on with LM Studio for running LLMs, managing models, and offline experimentation. Exploration of Google AI Edge Gallery for discovering, testing, and deploying AI models.
	Day-2 Online Assessment on DLH (5 PM -11 PM) & Feedback	

Course Structure (3 Days Physical- Day-3, Day-4 & Day-5)

Day	Module Name	Module Description
Day 3 (Physical) (10 AM to 6 PM)	Module 6: Python Fundamentals for CAs	Essentials of Python required for AI assisted Application Development Using AI, including environment setup, core Python syntax, commonly used libraries, and foundational programming constructs relevant for professional use by Chartered Accountants. Basics of Antigravity, Installation and use.
	Day-3 Online Assessment on DLH (5 PM -11 PM) & Feedback
