

Sample Outputs and Validation Evidence

Candidate: Nagaraju Gorantla **M. No.:** 222822 **Batch:** AI CA Level 2 - B91

These outputs summarize the recorded automated capstone test run. All eight defined scenarios matched both the expected total and expected review decision.

ID	Scenario	Actual USD	Review	Result
TC01	Standard Structured Email	2,106.00	No	PASS
TC02	Messy Natural Language	675.00	No	PASS
TC03	Approximate Amount	675.00	Yes	PASS
TC04	Zero Amount	800.00	No	PASS
TC05	Missing Container	350.00	Yes	PASS
TC06	Missing File Reference	700.00	Yes	PASS
TC07	Possible Duplicate Charge	1,100.00	Yes	PASS
TC08	Multiple Charge Types	2,525.00	No	PASS

Key Exception Evidence

- **TC03:** USD 450 storage + USD 225 port penalty were extracted, but the word 'around' triggered Needs Review. Validation issues recorded: storage confidence below 85% and approximate amount.
- **TC04:** USD 0 storage was ignored; USD 600 demurrage + USD 200 ferry produced USD 800.
- **TC05:** USD 350 warehouse rent was extracted, but missing container generated a HIGH validation issue.
- **TC06:** USD 700 detention was extracted, but missing file reference generated a HIGH validation issue.
- **TC07:** Two USD 300 storage charges plus USD 500 demurrage totaled USD 1,100; duplicate storage generated a HIGH validation issue.

Test Summary

Total tests: 8 **Passed:** 8 **Failed:** 0 **Errors:** 0

Important: 8/8 is performance on the defined capstone test pack only and is not a universal 100% accuracy claim.
