5. SYNTHESIZED EVIDENCE & RECOMMENDED PROCEDURES

- Aggregated behavioral profiling indicates 50.0% of processed records fall in the elevated risk zone.
- Identified 2 incoming Collect Requests targeting high-value funds extraction.
- Geographic and device fingerprint variances detected in 3 records.

Required Security Protocols:

- [Step 1] Initiate formal counterparty verification for all transactions scored above 50.
- [Step 2] Enforce mandate verification with respective issuing banks for recurring debits.
- [Step 3] Educate users regarding UPI Collect Request inversion patterns (PIN is strictly for outgoing debits).
- [Step 4] Lodge incident dossiers with National Cyber Crime Helpline (1930 / cybercrime.gov.in) for critical records.

RESPONSIBLE-AI NOTICE & CYBER CRIME HELPLINE

"This application provides AI-assisted risk indicators for educational and decision-support purposes. A high risk score does not establish that a transaction is fraudulent. Users should independently verify suspicious transactions and follow applicable bank and regulatory procedures." — This system does not request, store, or process OTPs, UPI PINs, CVV codes, or netbanking passwords. If unauthorized debits occur, immediately report to the National Cyber Crime Portal at cybercrime.gov.in or dial the 24x7 Helpline at 1930.
