Purpose

The purpose of this SOP is to document the monthly process for preparing the Monthly Revenue Report using the captured revenue extract, revenue report template, and prior-month reference workbook.

The procedure covers navigation to the required folders, copying source content, updating the revenue report template, saving the working file, accessing the prior-month reference, and completing the captured file-handling activities.

Scope

This SOP applies to the monthly revenue reporting activities performed by the Finance department for the Monthly Revenue Report process.

The captured process includes activities performed through:

- Windows File Explorer
- Microsoft Excel

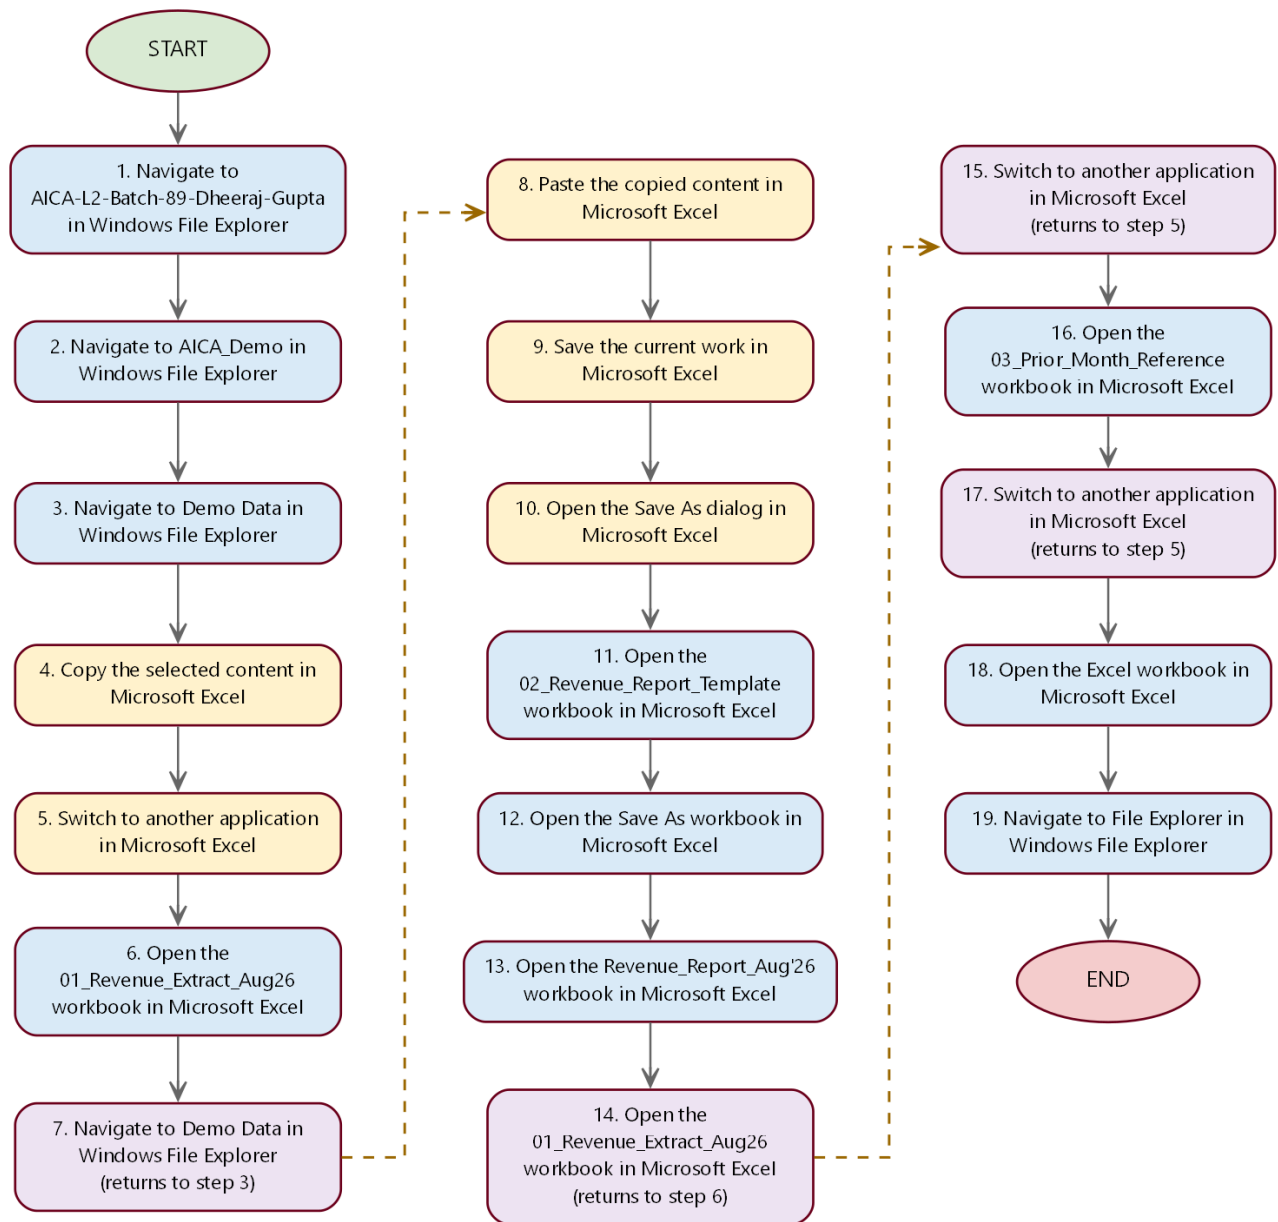

The process uses the following captured folder locations exactly as recorded:

- C:\AICA_Demo
- C:\AICA_Demo\Demo Data
- C:\Users\Dheeraj\Desktop\AICA\AICA Level-2_Batch 89\Capstone Project\AICA-L2-Batch-89-Dheeraj-Gupta

The procedure is limited to the 19 captured activities and does not introduce additional processing, calculations, reconciliations, or review procedures that were not evidenced in the capture.

Process Flow

The following diagram presents the captured sequence of application activities and approved user-interaction events.

Prerequisites and System Access

Before beginning the process, the user should have:

- Access to Microsoft Excel.
- Access to Windows File Explorer.
- Access to C:\AICA_Demo.
- Access to C:\AICA_Demo\Demo Data.
- Access to C:\Users\Dheeraj\Desktop\AICA\AICA Level-2_Batch 89\Capstone Project\AICA-L2-Batch-89-Dheeraj-Gupta.
- Access to the required revenue source, template, and prior-month reference workbooks identified in Section 5.
- Permission to save Excel workbooks in the applicable working location.

Captured Folder Locations

The following folder locations were captured directly from Windows File Explorer during the recorded session.

#	Folder path
1	C:\Users\Dheeraj\Desktop\AICA\AICA Level-2_Batch 89\Capstone Project\AICA-L2-Batch-89-Dheeraj-Gupta
2	C:\AICA_Demo
3	C:\AICA_Demo\Demo Data

Inputs

The captured process uses the following input files:

Input	Purpose in Captured Process
01_Revenue_Extract_Aug26.xlsx	Source workbook from which selected content is copied.
02_Revenue_Report_Template.xlsx	Revenue report template into which the copied content is pasted and subsequently saved.
03_Prior_Month_Reference.xlsx	Prior-month workbook opened as a reference during the process.

The captured files are located within:

C:\AICA_Demo\Demo Data

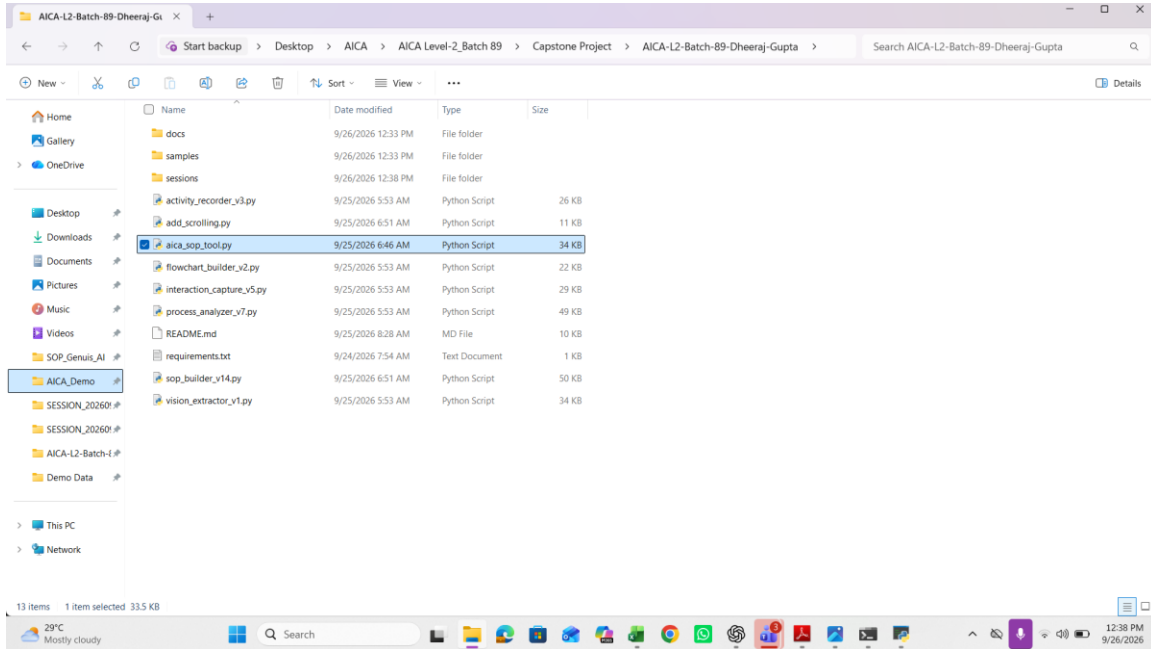

The process also navigates to:

C:\Users\Dheeraj\Desktop\AICA\AICA Level-2_Batch 89\Capstone Project\AICA-L2-Batch-89-Dheeraj-Gupta

Detailed Process Steps

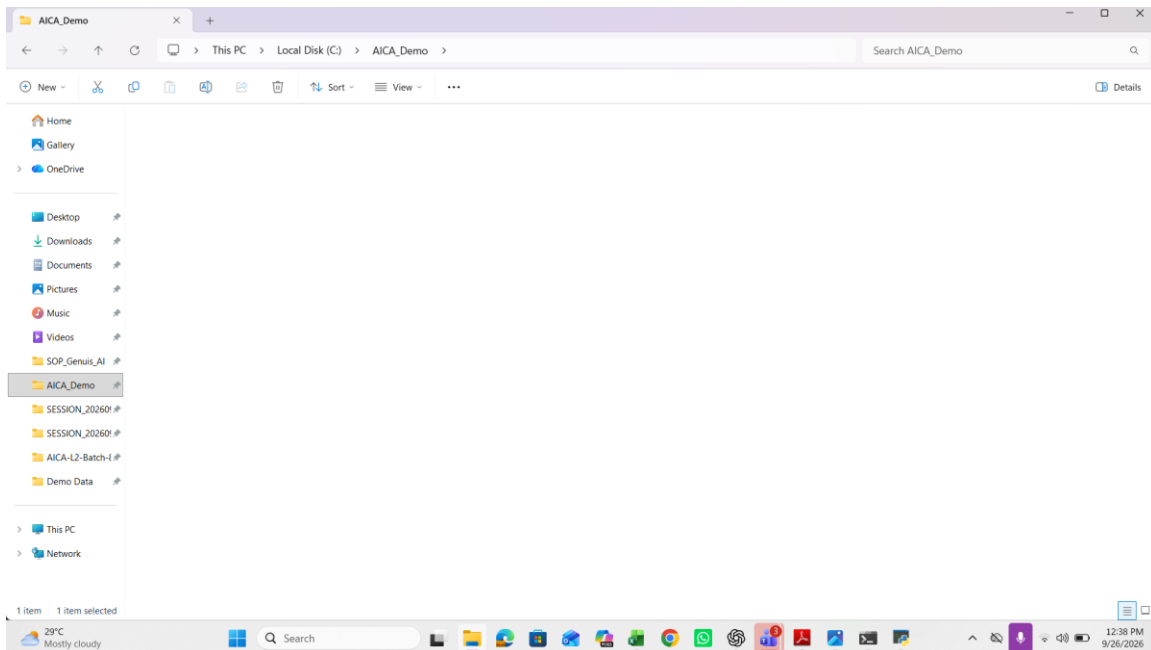

Step 1: Navigate to AICA-L2-Batch-89-Dheeraj-Gupta

In Windows File Explorer, navigate to C:\Users\Dheeraj\Desktop\AICA\AICA Level-2_Batch 89\Capstone Project\AICA-L2-Batch-89-Dheeraj-Gupta. Confirm that the intended project folder has been opened before proceeding.

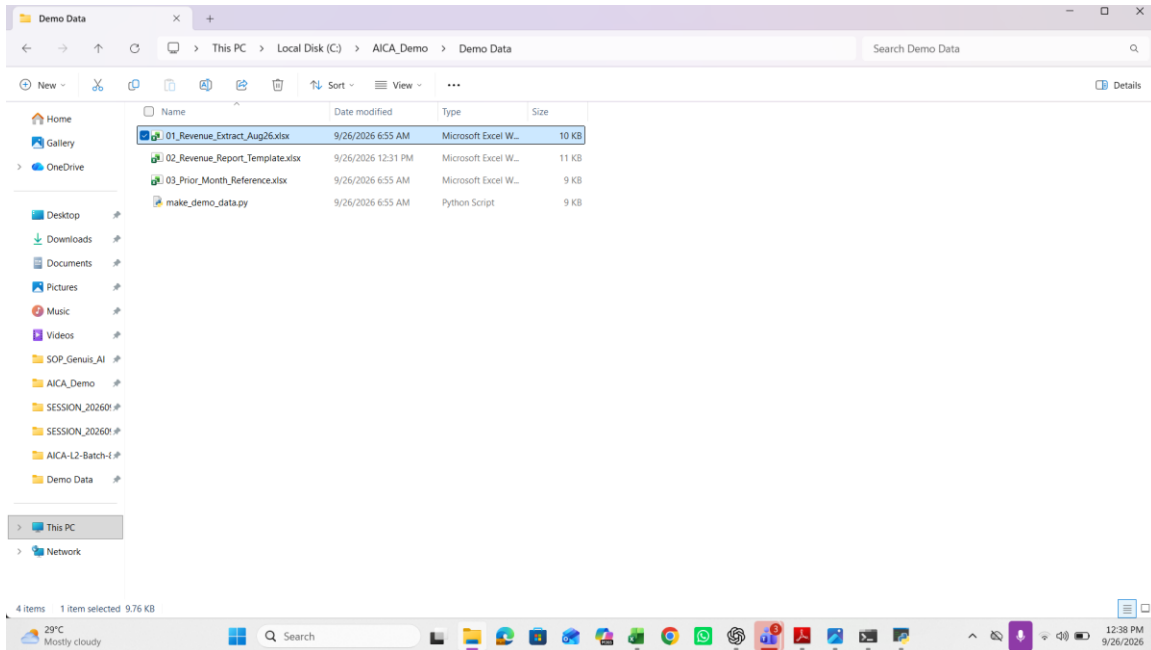

Step 2: Navigate to AICA_Demo

In Windows File Explorer, navigate to C:\AICA_Demo. Use this location to access the folder containing the revenue reporting data.

Step 3: Navigate to Demo Data

Open C:\AICA_Demo\Demo Data in Windows File Explorer. Confirm the presence of 01_Revenue_Extract_Aug26.xlsx, 02_Revenue_Report_Template.xlsx, and 03_Prior_Month_Reference.xlsx.

**Step 4: Copy the selected content**

In Microsoft Excel, while working in 01_Revenue_Extract_Aug26, copy the content that has been selected in the workbook using the Copy command. Preserve the copied content for use in the revenue report template.

The screenshot shows the Microsoft Excel interface with the '01_Revenue_Extract_Aug26.xlsx' workbook open. The 'Revenue Data' sheet is active, displaying a table of invoice data for August 2026. The table includes columns for Invoice Ref, Client, Region, City, Service Line, and Revenue INR. The total revenue is 14,250,000.

Step 15: Switch to another application

Switch from the current Excel application or workbook view to the next application or workbook context required by the captured process.

Step 16: Open the 03_Prior_Month_Reference workbook

Open 03_Prior_Month_Reference.xlsx in Microsoft Excel. Use the workbook as the captured prior-month reference during the monthly revenue reporting process.

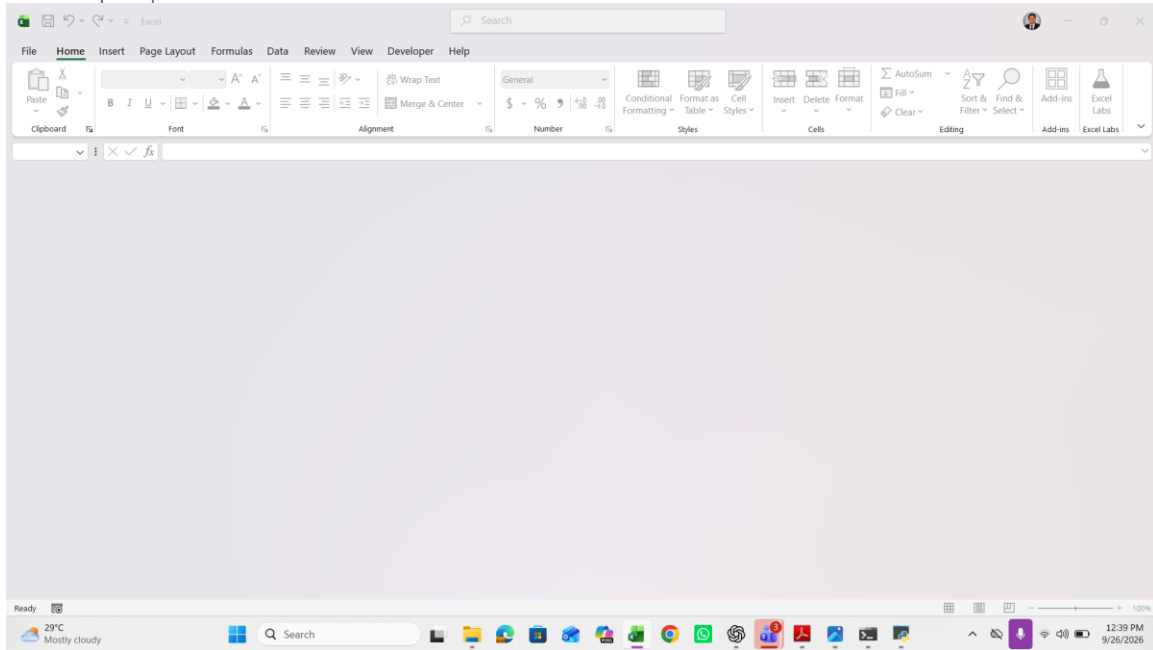

A screenshot of the '03_Prior_Month_Reference.xlsx' workbook. The worksheet is titled 'PRIOR MONTH REFERENCE | JULY 2026'. It contains a table with the following data:

Region	Service Line	Revenue INR
NORTH	Advisory	1,840,000
WEST	Transaction	2,260,000
SOUTH	Valuation	1,420,000
EAST	Facilities	980,000
WEST	Project Management	1,670,000
TOTAL		8,170,000

The status bar at the bottom indicates 'Ready' and the system clock shows 12:39 PM on 9/26/2026.

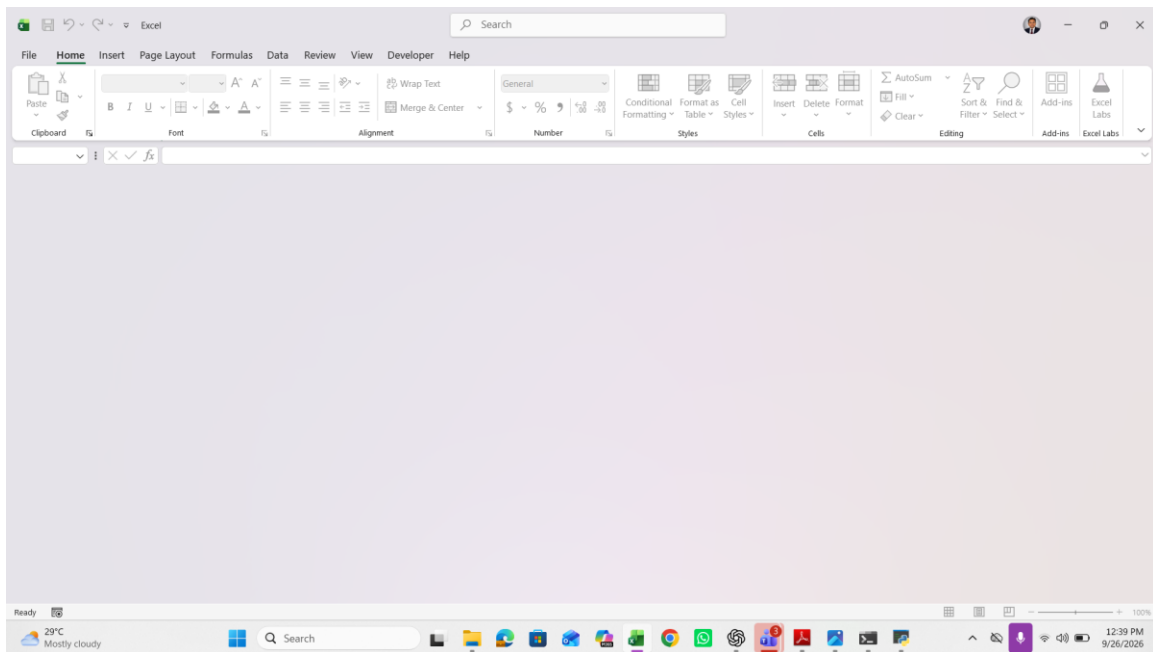

Step 17: Switch to another application

Switch from the current Excel workbook or application context to the next captured Excel context.

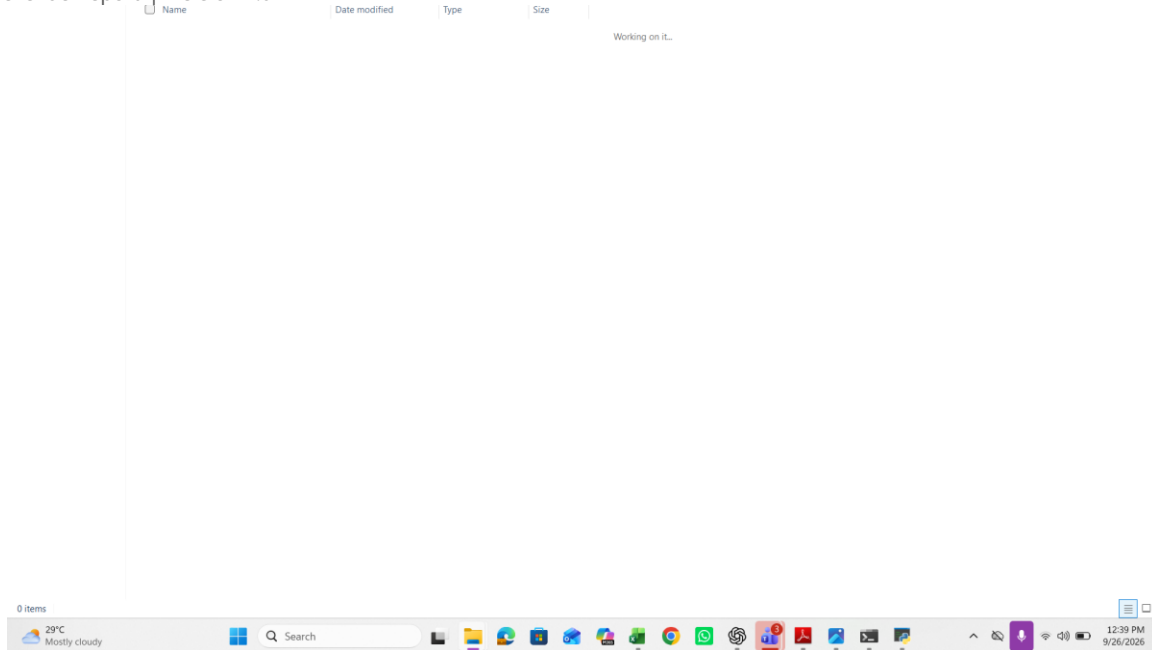

Step 18: Open the Excel workbook

Open the Excel workbook presented in the captured Excel context and continue within Microsoft Excel. No additional workbook name was captured for this step.

Step 19: Navigate to File Explorer

Navigate to Windows File Explorer and access C:\AICA_Demo\Demo Data, completing the captured sequence in the folder containing the monthly revenue reporting files.

Outputs and Deliverables

The principal captured output of the process is:

- Revenue_Report_Aug'26 workbook.

The process also records saving activity against:

- 02_Revenue_Report_Template.xlsx

The completed monthly report is subject to review / approval by the Reporting Manager in accordance with the process metadata.

Key Controls and Validation Checks

The following controls are directly relevant to the captured process:

Control Area	Control / Validation Check
Folder selection	Use the exact captured working locations, particularly C:\AICA_Demo\Demo Data, when accessing the revenue reporting files.
Source file	Ensure that 01_Revenue_Extract_Aug26.xlsx is used as the source workbook for the captured copy activity.
Report template	Ensure that copied content is pasted into 02_Revenue_Report_Template.
Prior-month reference	Use 03_Prior_Month_Reference.xlsx when the prior-month reference workbook is required in the captured sequence.
Save control	Complete the captured Save activity after updating 02_Revenue_Report_Template.
Save As control	Complete the captured Save As activity before proceeding to the workbook identified as Revenue_Report_Aug'26.
Output identification	Confirm that Revenue_Report_Aug'26 can be opened successfully after the save activities.
Sequence control	Perform the 19 activities in the captured sequence because the workflow includes movement between File Explorer, source files, the template, the resulting report, and the prior-month

Control Area	Control / Validation Check
	reference.
Review	Route the completed Monthly Revenue Report to the Reporting Manager for review / approval.

Risks and Common Errors

Risk / Common Error	Potential Impact	Preventive Action
Opening the wrong monthly source workbook	Incorrect revenue information could be used in the report preparation process.	Confirm that the source workbook is 01_Revenue_Extract_Aug26.xlsx.
Using the wrong template	Copied information could be placed into an unintended workbook.	Confirm that the destination workbook is 02_Revenue_Report_Template.
Working from an incorrect folder	Incorrect versions or unrelated files may be opened.	Use C:\AICA_Demo\Demo Data for the captured revenue reporting files.
Copy activity not completed before the paste activity	Required source content may not be available when the template is updated.	Complete the captured Copy action before performing the captured Paste action.
Changes not saved	Updates made to the revenue report template may be lost.	Execute the captured Save command before moving to the Save As stage.
Save As activity not completed correctly	The monthly report workbook may not be available under the intended reporting file context.	Complete the captured Save As activity and confirm that Revenue_Report_Aug'26 opens successfully.
Wrong prior-month workbook opened	An incorrect reference period may be used during the process.	Confirm that the reference workbook is 03_Prior_Month_Reference.xlsx.
Application or workbook switching causes work to be performed in the wrong file	Data may be copied, pasted, or saved in an unintended workbook.	Confirm the active workbook context whenever switching between Excel files or applications.

Escalation Contacts

Escalation Requirement	Contact / Role
